

# Chawston Village Hall

Saturday February 12th • 11am - 4pm

**Take a glimpse of our green and pleasant vision for Chawston Lakes**

If you look closely through the trees and foliage you will see a sanctuary of seven fishing lodges.

These will provide short stay accommodation for those who want to relax or retreat in the rural setting ~ as fishermen have done for many years.

Fishing is traditionally a popular pursuit ~ a trip down memory lane to a time when peace and quiet could be enjoyed in the countryside. To make this pastime more comfortable for people, the lodges are to be provided for overnight and short term stays for the fishing folk ~ it will also mean those with less mobility like the old and disabled can use the site too.

This environmentally-friendly enhancement is a gentle way of making a sanctuary of an existing, less accessible, facility.
