1. Community web site wccparish.co.uk: It was felt that the wccparish.co.uk web site was underutilised. It was agreed that minutes from all group meetings should be added to the site as well as a rolling list of planning applications and their status.	Russ B
2. Wavelength: In conjunction with item one. It was agreed that a pdf of the 'Wavelength' community newsletter should appear more frequently on the wccparish.co.uk web. Also that the group would request that the web site's URL was more prominently listed in the Wavelength.	Wavelength Editor
3. Broadband: Russ demonstrated a mobile broadband solution from the provider 'Orange' It was agreed that the speeds witnessed were similar to the fastest cable broadband in the parish currently only available to those using the Bedford 01234 exchange which covers the western half of Colesden. Russ agreed to write a piece for the Wavelength detailing the pros and cons of using a mobile broadband provider on a home based desk top PC once he was more familiar with the service and its foibles.
